

TEACHERS TO LEADERS

Be a Teacher | Be a Leader

TERM 2 - PD EVENT

Michael Ymer Teaching the 4 Operations St Columba's School Ballarat

Michael's work in classrooms, takes workshop ideas away from the conference room and into the classroom. Issues such as managing maths materials, organising classroom layout, engaging reluctant students and offering success at different levels will be a part of each modelled session.

**5th June
9am - 3pm**

St Columba's School
Ballarat

This day will be activity based with a range of ideas that will help teachers investigate the stepping stones to teaching and learning addition, subtraction multiplication and division.

It is an advantage for teachers to see the whole picture in computation, not just their teaching level. The target group is any teacher who works in Primary Schools.
