

Activating Real-world Learning

Primary and Secondary CECV teachers are invited to exclusive co-design workshops at Melbourne Zoo.

Thursday 22 June, 9:30-3:00pm, Melbourne Zoo

Thursday 14 September, 9:30-3:00pm, Melbourne Zoo

Whether you are looking for inspiration, or already have a project in mind, we are here to support you and your students to act for wildlife.

During this free workshop you will build a curriculum linked project with our easy to use teaching resources, including:

- Project ideas from across Victoria
- Teaching resources to support your understanding of animals
- Real school teaching examples
- Templates to start your project

You will receive support from Zoo Teachers to address your year level needs while drawing on the knowledge of other experienced teachers. You are welcome to bring your whole team or come on your own.

This workshop is fully catered, and you will receive a certificate for 5 PL hours.

Registrations close one week before each event –
