# Accessing Safety Data Sheets - FAQ
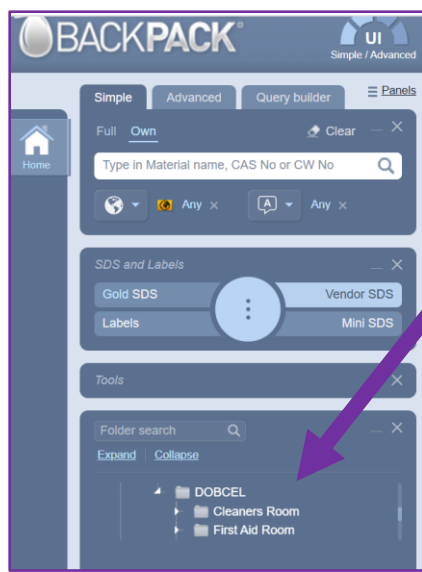

How do I find a Safety Data Sheet?

All Safety Data Sheets are housed in Chemwatch via the School SIMON page in the staff resource links:

Do I need a log in to access the information?

No you don't, once you click the link you will go straight to the schools data; the only log in required is for the school's dedicated chemwatch administrator.

What does the Chemwatch database look like?

Find your Safety Data Sheet in the right folder here or alternatively search for your product.

What do I do if the Safety Data Sheet isn't listed, or I introduce a new product?

Let your school's dedicated chemwatch administrator know and they can add it to your school's manifest.

How do I know if my product needs to be added to Chemwatch?

Recommendation to google the product; 'Bostick glue SDS' and see if a Safety Data Sheet is located for the product.

In the event of an emergency contact Chemwatch 24 hours a day on:

1800 951 288 or 03 9573 3188 and remember to log any chemical related incidents in HINT.
