

# Emergency Planning

Effective and Compliant Emergency Planning, Training and Management follows a cycle; planning, testing, improving and re-certifying. Optimising this cycle is something that our experienced team have been helping clients do for over 19 years, meeting their needs and maintaining compliance with applicable laws and Australian Standards.

## Consulting

We provide a best practice approach to emergency planning, documentation and training ensuring your buildings are compliant and occupants are response ready and safe with our effective, efficient and practical training plans.
