

Safety Alert #4 – Celebrating Health and Safety Month - October

October is Health and Safety month in Victoria and to promote this WorkSafe runs a variety of free events and training. DOBCEL encourages schools to register in any areas of interest.

Ideas for schools to participate:

1. Design a trivia session for a staff meeting – where is the ohs noticeboard, where do I go to log a HINT incident, where are the emergency evacuation points, what is the new legislation coming?
2. Hold a Morning or afternoon tea and celebrate with an award for a staff member that has shown leadership in this space
3. Design a simple survey – how can our school highlight OHS better (award for the best suggestion)
4. Safety Bingo – design a game for a staff meeting with OHS images
5. Complete an education industry hazard identification activity together
