

Reading Recovery Australia has launched a website which offers schools, leaders, teachers and families a wide range of information to deepen understandings about Reading Recovery.

Links to current research and studies about Reading Recovery and the effective implementation of Reading Recovery in a whole school team approach to improving literacy outcomes for students, whilst building teacher capacity, are now available on the website which can be located [here](#).

Reading Recovery Professional Learning for new and experienced teachers will be available to all schools in 2022. Please contact Helen Bettes: hbettes@dobcel.catholic.edu.au for further information.
