Skill-Driven
Steeped in data, trends and industry knowledge you will get the skills you needed now and for the future.

Developed by Educators for Educators

Our conferences, seminars and workshops have been designed and developed in partnership with The Schools Learning Community Advisory Panel. This partnership brings together senior and executive learning leaders from across Independent, Catholic and Public Schools, alongside school associations.

The Advisory Panel draws on their combined expertise to provide essential and timely insights on the professional learning needs, priorities and interests of secondary school educators.

Here at The Hatchery we believe in delivering more than just high quality conferences for educators. We want to be sure the information you learn really sticks with you. That's why **the conference itself is the first step of your learning journey.**

The learning journey is included in your registration. After the conference, you will have the opportunity to:

WRITE about what you learned in our discussion board, answering questions and sharing your expertise

READ materials learned in our post-conference summary

LISTEN and **SEE** video recordings of sessions

TEST yourself on how well you retained the content

TALK ABOUT what you're going to and are doing differently in two post-conference discussion groups

● As an educator, you know the importance of spaced learning and multiple modalities to retain new information. That's why we've built a learning journey that includes opportunities to write, discuss, listen, and even test yourself on the content!

● You also know that almost half of all new learning can be forgotten an hour later. So why bother attending a conference if you're going to forget all the material? At The Hatchery, the conference is only the first step. **Our optional post-conference events are specifically designed to help you retain the maximum amount of new information to inspire change.**

● Other conferences just share information and call it a day. Here at The Hatchery, we're committed to more than that. **We believe in doing everything we can to help you retain new information and make it a part of your professional life.**

Staff Room
For two weeks after the conference, join other delegates in The Hatchery's Staff Room, where we'll post thought-provoking questions about the content shared by our speakers. Write your thoughts, answer questions, and reinforce what you just learned.

Videos
Go back and watch portions that were especially impactful, or areas where you missed the content. Our video recordings will be posted quickly after the conference and available for 30 days to all delegates (Hatchery members can access indefinitely).

Test Time!
Did you really catch all the key points made? After one week we'll share a short quiz that covers material our speakers highlighted as most important. You can go back and re-learn areas that didn't stick. Don't worry, we won't share your grade!

Post-conference coffee
Gather (virtually) with other delegates to discuss what new learnings you plan to implement at your school. Hear new ideas from others, share your challenges, and get inspired to change!
