

Japanese community webinar

Executive functioning

Please join us for an opportunity to explore, share and learn with families, carers and others who support school-aged autistic students.

Executive functions are a set of cognitive skills that enable us to regulate, control and manage our thoughts and actions. These skills are strongly connected to learning and development.

In this webinar, we will:

- explore executive functioning skills and the implications for home and school for young autistic people in primary and secondary settings
- consider practical strategies to support executive functioning skills.

Wednesday 5th November 2025

1.00pm (Sydney time)

To register for 1.00pm, click [here](#) or scan the QR code.

8.00pm (Sydney time)

To register for 8.00pm, click [here](#) or scan the QR code.

Our main audience is people who support autistic children in Australia, but anyone who wants to learn about executive functioning in Japanese is also welcome to join. **The webinar will be facilitated in Japanese.**
